## THE LIFESTYLE-BLOCK OWNER AND FARMER'S GO-TO REFERENCE BOOK

This comprehensive book is an indispensable guide to the management of dairy cattle, beef cattle, sheep, deer, goats, pigs, poultry, horses and farm dogs in New Zealand.

Written mainly by experts from Massey University's Institute of Veterinary, Animal and Biomedical Sciences, it's of value and interest to everyone from students to farmers, right across New Zealand's agribusiness sector.

## ABOUT THE EDITOR

**Professor Kevin Stafford** is a veterinarian with an interest in animal behaviour and welfare. He is author of several books, including *The Welfare of Dogs* and *The Sciences of Animal Welfare*, and over 200 refereed papers. He is interested in farm-animal behaviour and welfare, and has a special interest in dog and cat behaviour problems. He teaches animal behaviour and welfare to veterinary, agriculture, ecology and humanities undergraduates, and supervises a number of PhD and Master's students. He is a fellow of the Royal Society of Veterinary Surgeons and the Australian New Zealand College of Veterinary Scientists. A graduate of University College Dublin, Edinburgh University and the National University of Ireland, Kevin is a Fellow of both the Royal College of Veterinary Surgeons and the Australian New Zealand College of Veterinary Scientists.

## SALES POINTS

- Expert advice from leading animal scientists and veterinarians at Massey and Lincoln universities
- Easy to follow and jargon-free
- Currently no other similar book in the market
- A lot of information available on livestock production in New Zealand is on industry websites or in the scientific literature and much is material from outside the country, usually from the USA, and does not reflect farming practice in New Zealand. This book addresses that situation

**PRINTABLE A3 POSTER AVAILABLE UPON REQUEST**
