A TECHNICAL AND SPECIALIST GUIDE TO DISEASES IN SHEEP

This book has been the go-to guide on sheep health, disease and production for veterinarians, farmers, farm advisors and veterinary, agricultural and applied science students since it was first published in 1993. Its authors are recognised internationally in the field of sheep health and production and have a lifetime of experience in the New Zealand sheep industry as well as wide exposure to sheep farmers working with practical production and flock health issues. This fourth edition is extensively revised and fully redesigned.

ABOUT THE AUTHORS

Anne Ridler is Associate Professor Sheep & Beef Cattle Health & Production at Massey University's School of Veterinary Science. She has worked in farm animal veterinary practice in New Zealand, and at the Royal Veterinary College in London. She is one of the three original authors of this book, the other two being **Neil Bruère** (ONZM, BVSc, PhD, DVSc, FACVSc) and **Dave West** (BVSc, PhD, FACVSc), both formerly of the Institute of Veterinary, Animal and Biomedical Sciences at Massey University.

SALES POINTS

- The go-to guide on sheep health, disease and production for veterinarians, farmers, farm advisors, and veterinary, agricultural and applied science students since it was first published in 1993.
- Expert and well-regarded authors who are recognised internationally in the field of sheep health and production. They have a lifetime of experience in the New Zealand sheep industry and also wide exposure to sheep farmers working with practical production and flock health issues.
