AN EXCELLENT RESOURCE ON TOXICOSES FOR VETERINARY STUDENTS, PRACTITIONERS, AGRICULTURALISTS, DIAGNOSTIC LABORATORIES AND LIBRARIES

Written for New Zealanders, this third edition of *Veterinary Clinical Toxicology* is updated with the latest references, new toxicities and an expanded section of poisonous plant plates in colour. Practical, and clinically orientated, its information is structured to assist the practitioner in readily making a diagnosis and treating toxicities, with a well-researched guide and readily sourced references.

'*Veterinary Clinical Toxicology* is an essential reference for veterinarians and students alike. The format, which allows assessment of hazards such as poisonous plants, minerals and chemicals, includes a list of agents, comparative toxicology and plates of poisonous plants. It is well organised and easy to read. — Dr John Kunkel, Faculty Emeritus, University of Vermont, USA.

ABOUT THE AUTHORS
