AN INTRODUCTION TO FINANCE AND FINANCIAL SYSTEMS

This fifth extensively revised and updated edition gives a practical overview of contemporary finance from a New Zealand perspective. Written by experts, it helps students understand:

- How the financial system and the institutions within it operate.
- How and why financial decisions are made.
- The tools, techniques and concepts used in finance, and how they are applied to the major sectors of finance.
- How individuals plan their short- and long-term financial activities.
- How business organisations manage and finance their short- and long-term financial activities.

Broad in scope, *Fundamentals of Finance* explains the important financial decisions made by businesses and individuals, and how these decisions are influenced by the financial environment in which we live and work. It provides an introduction to finance that assists students to make their own financial decisions. Helpful features include: examples, self-test questions (with solutions!), learning objectives, a glossary of terms and useful formulae.

ABOUT THE AUTHORS

Carolyn Wirth is a former lecturer at Massey University's Business School Te Kura Whai Pakihi.

Andrea Bennett is a former senior tutor in Massey University's Business School. Her research focused on financial systems, investments and financial planning, and financial literacy.
